+6281353161648 | carmelitacynthiadagur@gmail.com | [Linkedin](#) | [Github](#) | [Portofolio](#) | Sleman, Yogyakarta

Informatics Graduate from Digital Indonesia Technology University with a high GPA of **3.83/4.00**. Highly skilled in the Software Development Life Cycle (SDLC), including business requirement gathering, system design (UML/DFD), and Quality Assurance (QA). Proven track record in system analysis through an Impact Internship at PT Citi Asia Internasional and data analytics expertise from a Certified Independent Study. Proficient in Python, SQL, Looker Studio, and Tableau to drive data-driven insights. Seeking a professional role as a **System Analyst, Data Analyst, Business Analyst, or Quality Assurance (QA)**.

PROJECTS

- **Smart Village Ecosystem & City Super App (Internship Project) :**
Conducted business process analysis for Web, Mobile, and Admin platforms. Responsible for technical documentation (BRD, SRS, Use Case, DFD) and ensuring system quality through functional testing and feature validation.
- **User Specialization Analysis (Internship Project) :**
Processed large datasets to identify user interest patterns. Designed interactive Tableau dashboards providing strategic business recommendations based on data trends.
- **Jatma Aswaja E-Office :**
Executed end-to-end system analysis, designed database structures (ERD), and developed the technical architecture for an integrated information system, followed by rigorous quality testing.

WORK EXPERIENCE

System Analyst Intern– PT. Citi Asia Internasional Aug 2025 – Dec 2025

- Analyzed business requirements for large-scale projects: "Smart Village Ecosystem" and "City Super App."
- Developed comprehensive technical documents (BRD, SRS, Use Case Diagrams, and DFD) for development teams.
- Designed user flows and wireframes for Web, Mobile, and Admin Dashboard platforms.
- Performed system validation and functional testing (QA) to ensure features aligned with user stories and acceptance criteria.

Independent Study - Data Analysis - Karier.Mu Sep 2024 – Dec 2024

- Utilized SQL (SQLite) and Python for descriptive and diagnostic data analysis to discover meaningful insights.
- Built informative data visualizations using Tableau to support data-driven decision-making processes.

Student Staff (Admission & Marketing) – Universitas Teknologi Digital Indonesia Sep 2024 – July 2025

- Managed the admission database using Advanced Spreadsheet functions.
- Visualized real-time registration data through Looker Studio to support management reports and promotional activities.

Assistant Lecturer (Algorithm & Statistics) - Universitas Teknologi Digital Indonesia Sep 2024 – Jan 2025

- Guided students in programming logic, code debugging, and the application of statistical concepts in data analysis.

EDUCATION

Digital Indonesia Technology University - Yogyakarta Sep 2022 – May 2026
Informatics – S1, GPA: 3.83 / 4.00

ORGANIZATIONAL EXPERIENCE

- **Treasurer Coordinator – Unifest (2024 & 2025) :**
Managed event budgeting and prepared transparent financial accountability reports.
- **Treasurer Member – Maroon Day UTDI :**
Designed the budget for the Web CV competition and maintained detailed financial transaction records.
- **General Treasurer – HIMAFORKA :**
Responsible for organizational cash flow management and financial administration.
